Wikibooks is a collection of open-content textbooks, which anyone with expertise can edit - including you. Unlike Wikipedia articles, which are essentially lists of facts, Wikibooks is made up of linked chapters that aim to teach the reader about a certain subject.

China Safari On The Trail

"China Safari" is one of the first books to look at the influence China is having on the great continent of Africa. In the book, two authors travel separately and different times to various countries and "discover" Chinese influence. The book appears to be a collection of individual articles, so there is very little cohesion.
