This weekend I read Filipe Rojas's new book on Roman Anatolia, *The Pasts of Roman Anatolia: interpreters, traces, horizons* (2019). It's the kind of book that I'm prone to like because it considers how individuals in the past thought about their own past largely outside the realm of literary texts. The book brought together evidence for...

Roman Anatolia | Archaeology of the Mediterranean World

Maritime archaeology (also known as marine archaeology) is a discipline within archaeology as a whole that specifically studies human interaction with the sea, lakes and rivers through the study of associated physical remains, be they vessels, shore-side facilities, port-related structures, cargoes, human remains and submerged landscapes. A specialty within maritime archaeology is nautical ...
